Re: Chemical Processors, WAD020257945
Chemical Processors, WAD000812917
Chemical Processors, WAD000812909

Dear Mr. Cook:

We recently received the revised Part A application for the above referenced facilities. In reviewing these, we found certain necessary information missing. When submitting a revised Part A application, applicants must complete the signature and certification (items IX and X on Form 3). These two items are missing on two of the referenced identification numbers WAD020257945 and WAD000812917. The third identification number WAD000812909 has incorrect information on Form 3 item IV. The units of measure for estimated annual quantity should be in P (pounds), T (tons), K (kilograms) or M (metric tons) and not in gallons.

In order for EPA to process these Part A revisions into the national data base, we will need the above information to be completed. We are therefore returning the revised Part A applications for WDOE to follow-up on. Also, we ask that in all Part A follow-up actions, you verify that the person listed as "facility owner" on Form 3, items VIII and IX is the actual land owner. We have found that it is important to document these attempts to verify the land owner as well.

When the Part A applications are complete, please return them to us for processing.

Sincerely,

/S/ GEORGE C. HOFFER
